## STATEMENT

18 June 1944.

On 14 June 1944, as pilot of a E-26 type aircraft, No. 298, I picked up a radio message transmitted by another B-26 aircraft, No. 954, to radio station "Bunting" in Sardinia stating that he was going down. At the time the message was sent, I was flying on a course of 345 degrees approximately 50 miles south of Cagliari. I immediately called "Bunting" and asked him to direct me to the spot that 954 went down. This was done in 30 minutes. I circled the area for approximately 2 hours and took a 265 degree heading for base. I saw no signs whatever of the missing plane and learned later that the correct location was 20 miles east of the position I circled.
